Education

The University of Technology Sydney
Bachelor of Engineering (Honours) - Software

Sydney, NSW
2022 - Expected Graduation Nov 2026

Work Experience

Optik Consultancy (Engineer Intern)

Sydney, NSW

Python | PyTorch | OpenCV | Depth Estimation | GPMF Telemetry | YOLOv8 | SAM2

May 2026 - Aug 2026

- Built depth estimation pipelines in Python/OpenCV for client DCPM (Damage Control Project Management) to automate 3D volumetric damage measurement (potholes, road defects) from GoPro video captures.
- Fused monocular depth maps with GPMF telemetry (IMU/GPS) to calculate real-world metric 3D damage profiles for council infrastructure assessment.
- Integrated depth predictions with YOLOv8/SAM2 segmentation to automatically generate pixel-precise GeoJSON spatial exports.

Mooney Mooney Club

Sydney, NSW

Catering Attendant

2024 - Present

- Deliver high-quality barista coffee, bar service, and floor assistance to club members and guests in a high-volume hospitality setting.
- Support kitchen operations as a kitchenhand while maintaining food safety and hygiene standards across all service areas.
- Adapt seamlessly across multiple roles including bar, floor, and catering, ensuring smooth operations during events and busy service periods.

Projects

Tree of Life - Life Stages Visualisation Platform (UNSW Hackathon 2025)

Sydney, NSW

TypeScript | NextJS | React | Supabase

Mar 2025

- Built interactive life stages visualisation web app using TypeScript, NextJS, and ReactFlow, integrating Supabase for authentication and database management.
- Collaborated via GitHub for version control and debugging, resolving ReactFlow node alignment and scalability challenges.

Vanuatu Women's HandiCrafts Marketplace

Sydney, NSW

WordPress | PHP | REST API | Custom Plugins

Mar 2025 - May 2025

- Developed scalable e-commerce solution for Vanuatu Women's Handi Crafts, enabling artisans to preserve cultural traditions through micro-business sales and fundraising.
- Created structured user guide with clear procedures and explanations, facilitating efficient onboarding and independent operation for users with limited technical expertise.

Corporate Training Platform

Sydney, NSW

AWS | Microservices | REST API | C4 | UML | ATAM

Jul 2024 - Nov 2024

- Architected C4 model visualisations documenting complete system structure for corporate training platform.
- Delivered architectural analysis encompassing requirements, design rationale, and ATAM evaluation against business objectives.

Skills

Programming Languages: Python, JavaScript, Java, TypeScript, HTML, CSS, PHP

Frameworks & Tools: Docker, React, Tailwind CSS, RESTful APIs, WordPress, Git, NextJS, ReactFlow

Databases: SQL, MySQL, Supabase

Machine Learning/Vision: PyTorch, OpenCV, YOLOv8, SAM2, Depth Estimation, Image Processing

Leadership Experience

VSA NSW	Sydney, NSW
Director of Information Technology	Mar 2025 - Dec 2025
- Served as bilingual MC for Annual Charity Dinner, engaging 200+ guests including Fairfield Mayor Frank Carbone, Dai Le, and Tu Le, while managing event flow and cultural presentations, and helping raise over \$10,000 for Vietnam Foundation Australia. - Maintained the VSA NSW website, managing hosting, event registrations, and digital content for member engagement. - Supported VSA’s cultural programs and community events through back-end assistance, helping with setup, coordination, and on-the-day logistics.
